

Abdelrahman Karawia

Cairo, Egypt | +20 1116660056 | abdelrahmankarawia2@gmail.com | LinkedIn | GitHub

Professional Summary

Mid-Senior Flutter Developer with 3+ years of experience and 15+ production releases serving 10,000+ users across fintech, e-commerce, healthcare, and fleet operations. Strong in Clean Architecture, offline-first sync, payments, and performance optimization.

Education

University of Mansoura

2019 – 2023

Bachelor of Science in Computer Science

GPA: 3.3/4.0 (83%) – Very Good with Honors

- **1st Place** – University AI Competition (2023): Led a team to build a Flutter app with TensorFlow Lite on-device inference, outperforming 20+ teams

Professional Experience

NYOTA Studio

Aug 2025 – Present

Mid-Senior Flutter Developer – Full-time (Hybrid)

Alexandria, Egypt

- Owned key parts of architecture and delivery for **Tie Driver**, **Tie Work**, and **Manpower** — fleet operations, field-employee self-service, and workforce/recruitment apps serving **200+ active users**
- Built core modules: task dispatch, geofence-based attendance, and real-time route tracking
- Implemented an offline-first SQLite data layer with queued writes and conflict-resolution sync, reducing driver-reported data issues by **45%**
- Established unit and widget testing practices with **80%+** coverage on core business logic modules

Happy Softwares

Mar 2023 – Apr 2025

Mid-Level Flutter Developer – Remote

Saudi Arabia

- Delivered **8+** cross-platform apps end-to-end for international clients in fintech, e-commerce, and healthcare; maintained **5-star** client satisfaction and **100%** on-time delivery
- Built and maintained shared Flutter packages (UI components, API client, auth module) adopted across 6 projects, reducing feature development time by **25%**
- Wrote integration and widget tests for shared packages, ensuring regression-free releases across dependent projects

Spectrum for Information Systems

Feb 2024 – Jul 2024

Flutter Developer – Part-time (Contract, Concurrent with Happy Softwares)

Cairo, Egypt

- Developed the Egyptian Drug Authority mobile app for pharmaceutical regulatory compliance, serving **500+** government officials and licensed pharmacists
- Integrated **12+** RESTful API endpoints for inventory, barcode scanning, and automated reporting with offline queuing

Ektml – Technology Solutions

Jan 2022 – Jan 2023

Junior Flutter Developer – Full-time (Hybrid)

Mansoura, Egypt

- Shipped **5+** Flutter apps using Clean Architecture (MVVM), achieving **90%+** code reuse via SOLID practices and dependency injection (GetIt)
- Improved UI performance on mid-range devices by refactoring widget trees, using **const** constructors, and reducing rebuilds with Bloc/Cubit

Selected Applications

Masroofi – School Financial Management Platform

App Store

Flutter Developer

Kuwait

- Built a fintech platform enabling NFC-based student payments via wearables, processing **2,000+** daily payments across multiple schools
- Implemented biometric auth (Face ID/Touch ID) and AES-256 encryption; integrated a PCI DSS-compliant payment gateway
- Optimized app performance and UI responsiveness across low-end devices; reduced load time by **30%** through lazy loading, caching strategies, and efficient state management

Tie Driver – Fleet Operations & Driver Management App

Flutter Developer

App Store | Google Play

Egypt

- Developed an Odoo-integrated fleet operations app that delivers real-time delivery and pickup task assignments with full job details, priority levels, and location context
- Engineered background GPS tracking for transparent task progression and implemented one-tap geofence-validated attendance (clock-in/clock-out) directly within the app

Athathy – Furniture & Home Décor E-Commerce App

Flutter Developer

Google Play

Egypt / Saudi Arabia

- Built a full e-commerce flow for a furniture and home décor platform offering modern and classic collections across varied styles and budgets: product catalog with category filtering, wishlist persistence, and Stripe/Tap checkout integration

Technical Skills

Mobile Development: Flutter/Dart (3+ years), Android (Basic), Material Design 3

State Management: Bloc/Cubit (Primary), Riverpod (Primary); Familiar: Provider, GetX, Redux, MobX

Architecture & Patterns: Clean Architecture, MVVM, Repository Pattern, SOLID, Dependency Injection (GetIt/Injectable)

Testing: Unit Testing (Mockito), Widget Testing, Integration Testing

Tools & DevOps: Git/GitHub, Android Studio, VS Code, CI/CD (GitHub Actions, Codemagic), Fastlane, Postman, Figma, Jira

Databases & Storage: Firebase Firestore, SQLite (sqflite), Hive, Shared Preferences, Secure Storage

AI & Productivity Tools: Claude (Anthropic), ChatGPT, GitHub Copilot, Cursor, MCP (Model Context Protocol), Spec-Kit AI; proficient in prompt engineering and AI-assisted development workflows

Languages: Dart (Expert), Python (Expert), SQL (Intermediate), Java (Basic), Kotlin (Basic)
